Pacific AIDS Education and Training Center:

Contact: Jerry D. Gates, Ph.D., Director

Phone: (323) 442-1846

jdgates@usc.edu

The Institute for Genetic Medicine Art Gallery and its Education Program

The art gallery's exhibits demonstrate that eco, social, economic - all systems, operate on the same systemic, evolutionary process as the human body. We draw comparisons between art-and science-based creative inquiry, problem solving and moral questioning. The gallery's mission is to gather public, private, nonprofit academic and media leaders to engage in discussion and debate leading to sharing and leveraging resources.

Contact: Lynn Crandall

USC IGM Art Gallery Director

Keck School of Medicine, University of Southern California
