EMERGENCY MEDICINE

Applications will be accepted beginning March 1st of Year III

DIRECTOR:  Jonathan Wagner, MD  PHONE #: 323-226-6667
E-mail: jwagner@usc.edu

COORDINATOR:  Hiralda Godoy  PHONE #: 323-226-7763
E-mail: hgodoy@usc.edu

COURSE OBJECTIVES:
Students will be able to:
1. Discuss a wide spectrum of emergency and non-emergency problems.
2. Perform patient evaluations by examining undifferentiated patients under Emergency Medicine resident and faculty supervision.
3. Quickly develop a differential diagnosis on undifferentiated patients, using relevant history and physical, as well as selective ancillary studies.
4. More effectively interpret radiographs and electrocardiograms, establish IVs, perform CPR, lumbar puncture, suturing, splinting and ABGs.
5. Describe resuscitation techniques and problems.
6. Describe how the Emergency Department relates to other departments and services.

INSTRUCTION:
75% Supervised Patient Care
7.5% Lectures
7.5% Attending Rounds/Small group discussion
10% Independent Study

SUPERVISION:
100% Faculty and Residents

DESCRIPTION:
Under direct supervision by the staff and residents, patients are evaluated in the emergency department (both major and minor medical and trauma areas). Experience is gained in diagnosis, treatment, and disposition of many patients with undifferentiated complaints. Students must work between 12 to 16 twelve-hour shifts/month, of which 50% will be night shifts. The student is also expected to participate in weekly departmental conferences (Thursday mornings), weekly medical student lectures, workshops on both suturing and EM Ultrasound, and for those applying to EM, give a short presentation. In addition, a 50-question multiple-choice final exam will be given during the last week of the rotation.

EVALUATION:
Students will be given a handout at the beginning of the rotation, which will outline expectations. The course director will write the evaluation based on evaluations by faculty and residents. Students will receive feedback on their performance, in particular, improvements needed during the elective.

Selective Attendance and Illness Policy
In order to insure adequate clinical exposure, no more than 3 days of excused absences (to include official Holidays) can be accepted during a selective. This policy does not imply that absences are guaranteed; absences may be excused at the discretion of the faculty. Absence due to illness must be reported to the faculty or his/her designee as soon as possible. In case of extended absence (2 days or more), a note from a physician (who is not a relative) is required and the absence will be reported to the Office of Student Affairs. A physician note may be requested for any absence, at the discretion of the faculty.

Students will generally be required to make up days before a passing grade can be assigned. All absences must be excused and any planned absence must be registered with the preceptor prior to the first day of the selective. Students should take vacation time if he/she anticipates a need for more than 3 absences during a selective. USMLE and BLS/ACLS will not be considered excused absences.
