EVALUATION:
Specific performance of the student will be evaluated by faculty and fellows within the Division. Personal discussions of performance will be held with each student by the Fellow or Faculty member with whom the student worked. Students will be evaluated by all fellows and staff with whom they have contact. The evaluations will be written by the preceptor utilizing the information gathered from the staff and fellows. Students will be asked to provide evaluations of the clerkship at the completion of the service, in both written and verbal formats.

“Selective Attendance and Illness Policy
In order to insure adequate clinical exposure, no more than 3 days of excused absences (to include official Holidays) can be accepted during a selective. This policy does not imply that absences are guaranteed; absences may be excused at the discretion of the faculty. Absence due to illness must be reported to the faculty or his/her designee as soon as possible. In case of extended absence (2 days or more), a note from a physician (who is not a relative) is required and the absence will be reported to the Office of Student Affairs. A physician note may be requested for any absence, at the discretion of the faculty.

Students will generally be required to make up days before a passing grade can be assigned. All absences must be excused and any planned absence must be registered with the preceptor prior to the first day of the selective. Students should take vacation time if he/she anticipates a need for more than 3 absences during a selective. USMLE and BLS/ACLS will not be considered excused absences.
