I. PURPOSE

We are pleased to offer this handbook as a guide to help fund your medical education. This guide should not be your only resource; rather, it is intended to serve as an excellent place to begin. The Keck School of Medicine is dedicated to providing a first-rate education and is committed to helping you meet your educational goals by lessening the burden of financial obligations.

Disclaimer: The Keck School of Medicine cannot ensure nor monitor updates or changes in the information provided in this guide. All information, including deadlines and criteria, were accurate at time of print. It is the responsibility of the student to verify and be aware of individual program and award amounts, criteria, deadlines, etc.
II. SCHOLARSHIP & AWARD TIMELINE

- US medical students must have completed their basic science courses and one year of clinical clerkship. Criteria for selection will include strong interest in and potential for a career in international health as well as exemplary academic qualifications. In addition, students must have the academic support of their home institution and a committed mentor.

Expected Deadline: Late December

**Applications will be available in July.**

Contact: [http://www.aamc.org/students/medstudents/overseasfellowship/start.htm](http://www.aamc.org/students/medstudents/overseasfellowship/start.htm)

**Fullbright Program for US**

Program: The U. S. student program is designed to provide opportunities for personal development and international experience. It also allows students to design their own programs, include University coursework, Library or field research, take classes in a music or art school, take on Independent projects in the social or life sciences, Assist in teaching English, and or a combination of other projects.

**Criteria:**

- Be U.S. citizens at the time of application. Permanent residents are not eligible

- Hold a B.A. degree or the equivalent before the start of the grant
  
  o Applicants **who have not earned a B.A. degree** or the equivalent, but who have extensive professional study and/or experience in fields in which they wish to pursue a project, may be considered
  
  o In the **creative and performing arts**, four years of professional study and/or experience meets the basic eligibility requirement
- Be in good health. Grantees will be required to submit a satisfactory Medical Certificate of Health from a physician
- Have sufficient proficiency in the written and spoken language of the host country to communicate with the people and to carry out the proposed study. This is especially important for projects in the social sciences and the humanities
- Applicants may hold a J.D. degree at the time of application, but not a doctorate

Expected Deadline: May 1 through October 21
Contact: http://us.fulbrightonline.org/home.html

Global Health Scholar Award
Award Amount: Varies
Criteria: The scholarships will be awarded on a competitive basis to students who demonstrate an interest in learning about health care in developing countries. Proposals for clinical electives will be evaluated on how well thought out the goals and objectives are, and how the planned activities will help achieve those goals. The selection of a site and a faculty supervisor for the elective are considered very important aspects of the proposal. Proposals for research electives will be rated on the scientific merit of their research proposal, and demonstrated support from both a UTMB faculty mentor as well as selection of a site and supervisor that will assure the research plan can be carried out. Students for all types of awards will need to demonstrate how this award will impact their future training and career goals, and contribute to a better understanding of global health. Upon completion of the elective, students will be required to make a presentation to S.I.G.H.T the following semester and submit a poster during International Education Week activities. McLaughlin Award recipients will be required to present a poster at the Medical Student Summer Research Forum.
Eligibility: Applicants must be currently enrolled in the School of Medicine at UTMB, and be in good standing with the school. They must be registered, or plan on registering, for an approved international health elective or research activity in a developing country. Students undertaking a research elective will also have to have the approval of the director of the Medical Student Summer Research Program. Please note the Medical Spanish Abroad course does not qualify for scholarship funding.
Expected Deadline: February 15
Contact: http://www.utmb.edu/sight

Howard Hughes Medical Institute
Medical Student Fellowships
Award:
. Support for an initial year of research training enables medical students to spend a year conducting full-time research in specified fields of study.
. Continued support for research training supports a second year of research. (Only for HHMI fellows who have received support for an initial year of research training.)
. Continued support for completion of medical studies supports up to two years of medical studies. (Only for HHMI fellows who have received support for an initial year of research training.)
Criteria: The fellowship research must be conducted at a U.S. institution
Expected Deadlines: Initial year: January 11
. Continued support for research: March 11
. Continued support for medical studies: March 11
Contact: http://www.hhmi.org/grants/individuals/medfellows.html

Memorial Sloan-Kettering Cancer, Center (MSKCC)
Summer Student Fellowship Program
Program: $5000 fellowship in research & clinical oncology/eight weeks between June & August
Criteria: Must be in first two years of medical school
Expected Deadline: February 10
Contact: http://www.mskcc.org/summerfellowships

National Institutes of Health (NIH)
Interim or Year-Off Intramural Research Training Award (IRTA) Fellowships
Program Amount: $19,300-$25,300 stipend.
Criteria:
. Must be a US citizen or permanent resident & student is expected to resume school after the fellowship
. Must provide written permission to delay matriculation or interrupt school
Expected Deadline: Applications are accepted continuously

   (e-mail: cbryan@gw.mp.sc.edu)
AMWA Foundation
Carroll L. Birch Research Award
Award Amount: $1000, plaque presented at AMWA's Annual Meeting, article noting award winner in one of the Association publications, abstract of the paper may be published in AMWA's Journal
Criteria:
1. Must be National Student Member of AMWA
2. May submit original research paper that may have been published previously
3. Must provide following on title page: title, author(s), entrant's name, address, phone, email, school and graduation date
4. Must include an abstract of 250 words or less
5. Paper title must be on the top of the abstract as well as the paper itself
6. If student is not the first author, a cover letter from the principle investigator must accompany the paper which describes the entrant's contribution to the work
What to Send:
1. 4 copies of the manuscript
2. Letter from your faculty research sponsor
3. Cover letter stating your medical school, graduation date & permanent address
Expected Deadline: June 30
Contact: http://www.ama-assn.org

The American Academy of Neurology (AAN)
Education & Research Foundation Aventis Minority Scholars’ Program
Award Amount: Eight scholarships available to attend the AAN Annual Meeting
Criteria: Must be from under-represented underserved population in good standing with interest in the neurosciences; preference given to second- & third-year students
Expected Deadline: December 1
Contact: http://www.neurofoundation.org/public/minority.cfm

American Federation for Aging Research
Award Amount: The stipend level is $1,731 per month. The stipend for an eight-week period is $3,462, and for a twelve-week period is $5,193. The total stipend level will be prorated based on the duration of each individual scholarship. The length of research time is determined by the student in consultation with the research mentor. Students who elect to participate in the scholarship program at a National Training Center must cover their own travel and living expenses. In some cases, National Training Centers may have funds to assist students with these costs.
Description: The 2007 MSTAR Program provides medical students, early in their training, with an enriching experience in aging-related research and geriatrics, under the mentorship of top experts in the field. This program introduces students to research and academic experiences that they might not otherwise have during medical school. This positive introduction has led many physicians-in-training to pursue academic careers in aging, ranging from basic science to clinical research to health services research. They
have joined the growing cadre of physicians and scientists whose specialized knowledge and skills are in great demand as our population ages.

Criteria: The applicant's ability and promise demonstrated by
- academic performance, statement of purpose, and letter of support.
- Interest in gerontological issues as demonstrated by course work, independent study, volunteer activity, etc.
- Interest and potential for success in an academic career.

Eligibility: Applicants must be citizens or non-citizen nationals of the United States, or must have been lawfully admitted for permanent residence (i.e., in possession of a currently valid Alien Registration Receipt Card I-551, or some other legal verification of such status.) Individuals on temporary or student visas and individuals holding PhD, MD, DVM, or equivalent doctoral degrees in the health sciences are not eligible.

Expected Deadline: February 7
Contact: http://www.afar.org/medstu.html

**American Heart Association.**
**Medical Student Research Program**
Program: 8, 10 or 12 weeks to carry out cardiovascular-related research in a lab environment/$480/wk stipend
Criteria: Full-time research effort; must propose a preceptor/project at a non-profit research institution in CA, NV or UT; awardees may not hold a comparable award simultaneously'
Expected Deadline: March 7
Contact: Information and Apply online: http://www.americanheart.org/presenter.jhtml?identifier=3013195

**American Osler Society**
**William B. Bean Student Research Award**

Two Medical Park, Suite 502
Columbia, SC 29203

**The Arnold P. Gold Foundation Grant**
Award Amount: Varies
Criteria: Different Criteria for the many different grants. Please go to the website for more information.
FYI: The Gold Foundation funds unsolicited projects, such as research, lectures, curriculum development, community outreach, cross cultural education, and the publication of literary writings related to the practice of humanistic medicine which can be self-sustained and replicated. Although the Gold Foundation does not have a specific funding limit, grants are given for as little as $250 and do not typically exceed $25,000. The Gold Foundation generally provides one-time funding for projects and looks favorably upon those projects, which can be self-sustaining and replicable. The Gold Foundation is particularly interested in innovative programs which include a strong evaluation component.
Expected Deadline: Varies
Contact: http://humanism-in-medicine.org/cgibin/htmlos.cgi/0383.3.6460329573615273482

Doris Duke Clinical Research Fellowship Program
Program: Fellows will receive stipends of $20,000 plus health insurance to spend a year conducting clinical research and receiving didactic training at one often medical schools around the country.
Criteria: Must have completed two or more years of medical school prior to the start of the Fellowship and have completed some clinical experience

Website: [http://www.fightforsight.com/Home.php](http://www.fightforsight.com/Home.php)

**Himalayan Health Exchange**
Description: Himalayan Health Exchange is a humanitarian service program bringing together healthcare professionals who give of their time, talent and resources to provide care to the underserved populations in select, remote areas of Indo-Tibetan Borderlands. Each trip combines service and adventure, with team members providing care while also experiencing the land, its natural environment, people and culture.
Program Objectives: To gain international health exposure. To learn, develop and apply practical skills in non-traditional settings. To develop sensitivity to different health care delivery systems by working alongside local health care providers. To introduce students to cultures and lifestyles in remote rural areas. To develop awareness by analyzing social, economic and health need
